notes: (1) New discovery after the seventh edition of H&HI.
(2) This printing, unearthed by Oliver Heath in 2022, completes a three decade quest. We have now shown the existence of every expected Hardy Boys back endpaper order form for every title. (And even a few extras, such as the order form listing only to *The Jungle Pyramid* on *The Firebird Rocket*.) Of course, many titles listing all 58 books in the classic series on the back order form do not make the main listings. There'll still probably be dribs and drabs of new discoveries rolling in for any given order form, mainly new back cover title lists.
